ENERGY EFFICIENCY CERTIFICATE

The Certified Part, has via EnergyWheel classification, achieved an Energy Efficiency Rating

CERTIFICATE IS ISSUED TO

GlobalConnect A/S

VAT NO. 26759722

This certifies that Company has completed energy optimization projects,
which have been documented by Rejooose and verified.

Period of documentation and accounting: **2020**

energy efficiency rating **A⁺** on Data Center project

Below values are accumulated results for Certification years 2019 and 2020

Reduced amount of CO₂
866 tonnes
based on 4.641.106 kWh in
documented energy reduction

This equals to the annual
CO₂ absorption of
84.383 trees

Reductions is based on projects: 2.056.15, 2.056.18, 2.056.21 and 2.056.24 and 2019 Certification projects.

Area of verification is: Data Center Colocation installations – Hørskættten 5 & 12, 2630 Taastrup

Including Uninterruptible Power Supplies - UPS and cooling infrastructure.

This certificate serves as a final document, to display the obtained reductions from the energy reports approved by the Danish energy companies, according to decree no. 1452.

Reduced CO₂ footprint for 2020 is based on 157,5g CO₂ per reduced kWh.
